The Caster will then
make sure the other
three priests have their
hands upon the alter.
Once confirming and
seeing all the contributors
of the gifts behind him
will he begin the first
line of chant. Solemnly he
will then chant the lyrics:
"In Vas Ort Sanct"
interpreted as Greater
Magic Protection. This will
use the reagent of
Fertile Dirt, the reagent
of Protection. This will
protect you from the
summoning of the Deities.
After casting the magic
protection, begin the next
line of cast. With
complete concentration,
and complete silence, the
caster will then summon
the Deities before the
Season. "Kal Vas Mani
Corp Ylem Xen."
Interpreted as Summon
Great God in Physical
Form. This will summon
the Deities from their
slumber in physical
spiritual form before the
caster and all the
members. The Deity will
then take his gifts and
invoke a power magic
surge through out the
valley which will be the
blessing of the Deity. The

Deity will either be the
Deity of Oblivion or
Entropy. If the season is
Summer or Spring, then
it will be Entropy. If the
season is Fall or Winter
the Deity will be Oblivion.
